Garador – quality
automated garage
door openers that you
can trust

Secure garage door control at your fingertips

Every Garador automated garage door opener comes standard with TrioCode™ remote control technology which delivers:

- Advanced security against code grabbing devices that attempt to gain access to your home
- Reliable operation – rest assured that your remote will work when you need it to
- Excellent operating range
- No interference from other wireless devices such as baby monitors and door bells
- 4 remote buttons so that you can operate multiple garage doors (home, batch, automatic gate, etc)

Featuring
TrioCode™
Technology

New Zealand families have trusted Garador's garage door automation products for decades. Our latest range builds on this rich heritage by combining smooth and reliable operation with a range of features that will not only help protect your family but keep your treasured possessions safe.

What is TrioCode™ 128?

The TrioCode™ 128 transmitter system ensures secure and reliable home access. It uses the same 128-bit Advanced Encryption Standard (AES) that is relied on by banks, spy agencies and governments for keeping secret data safe.

It transmits over 3 frequencies to defeat radio interference and uses a 128-bit encryption (with trillions upon trillions of codes*) for the ultimate in security.

(*340,282,366,920,938,463,463,374,607,431,768,211,456 codes to be precise).

ENDURO GDO-9

Garador Enduro GDO-9 Super quiet, powerful operation

Overhead sectional door opener

If you want the best performance with super quiet operation, then Enduro is the opener of choice. It effortlessly delivers smooth, reliable door control at the touch of a button. It includes a powerful 1000N DC motor with the flexibility to vary the speed and power output according to the door type.

Features

- Heavy duty 1000N DC motor
- Soft start and stop to reduce door stress
- Long lasting LED automatic lights
- Intelligent sensitivity system with automatic reverse – minimising the risk of damage to people, pets and property

The Enduro is compatible with single and double sized Sectional, Flex-A-Door and Tilt doors up to 18m² and comes with two TrioCode™ 128 remote controls and a wireless wall mounted remote control.

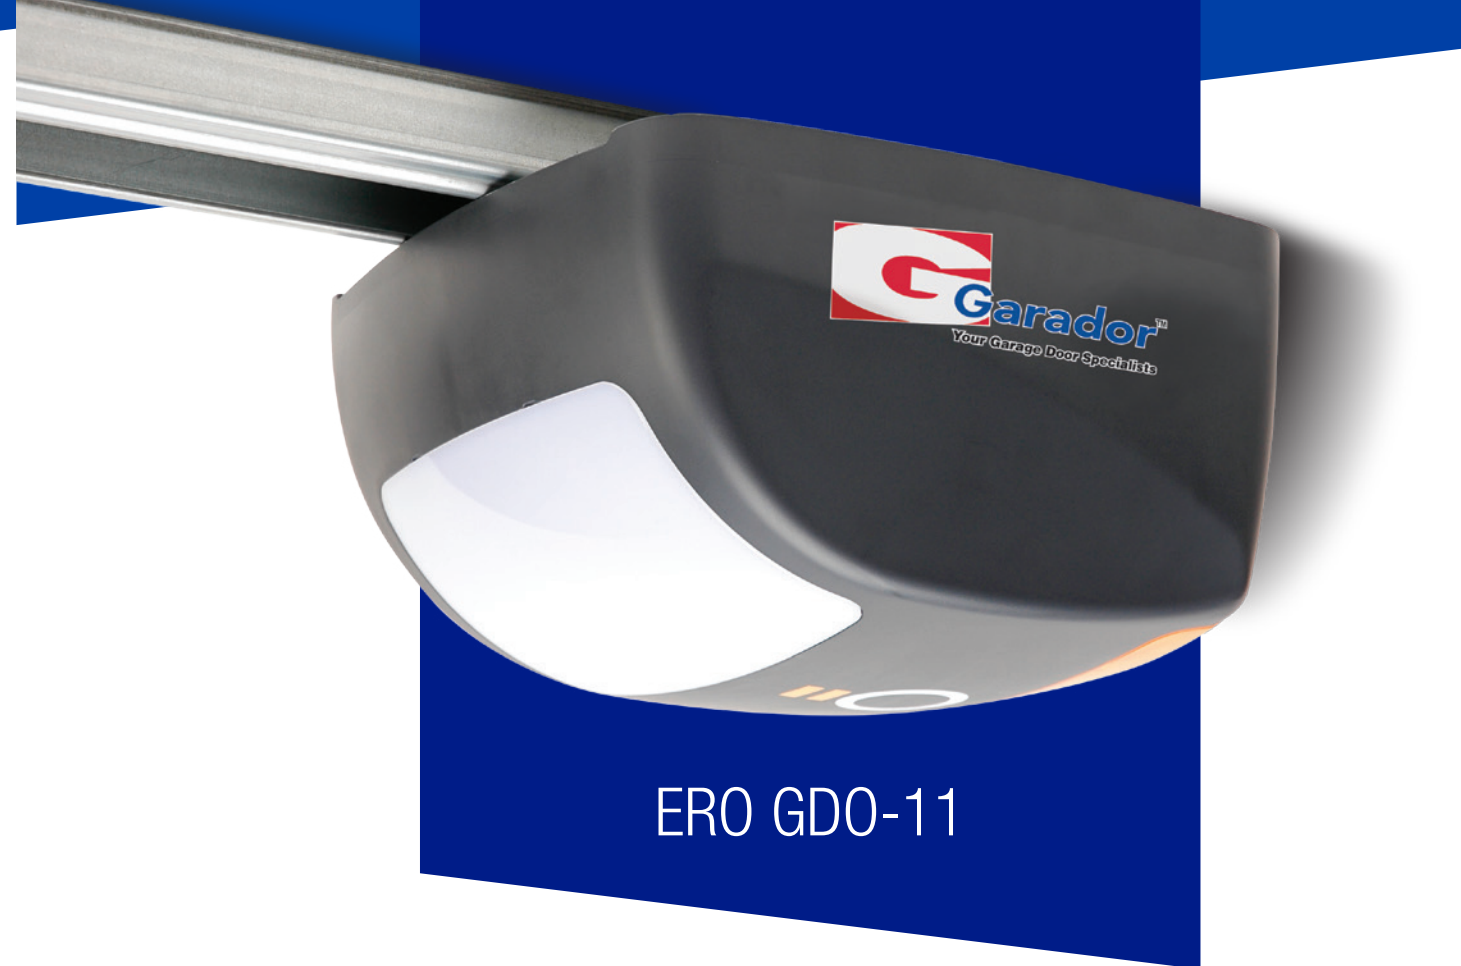

Optional door modes include

- Automatic close timer – for extra security protection
- Ventilation / pet mode – for allowing air flow or pet access into the garage
- Vacation mode – for prolonged absences

Belt drive option

Sssssshhh – if you've got a sleeping baby, you work night shifts or your bedroom is located above the garage door, then we can install a quiet belt drive option.

ERO GDO-11

Garador Ero GDO-11 Quiet, quick and value for money

Overhead sectional door opener

The Ero is our entry level garage door opener and has been designed to make your garage automation easy. It offers a quality garage opener at an economical price. It still has all the important features and has a 650N DC motor that will drive most standard residential doors.

Features

- Smooth and efficient 650N DC motor
- Soft start and stop to reduce door stress
- Automatic courtesy light

The Ero model works with single and double sized Sectional, Flex-a-Door and Tilt doors up to 13.5m² and includes three TrioCode™ 128 remote controls and a wall clip.

Optional door modes include

- Ventilation / pet mode – for allowing air flow or pet access into the garage
- Vacation mode – for prolonged absences

Chain drive

The ERO GDO-11 comes with a heavy duty chain. Economically priced, it is reliable, durable and built to last.

EASYROLLER GDO-6

Garador EasyRoller GDO-6 Smart, simple and secure

Roller Door opener

The Garador EasyRoller is a slim and reliable Roller Door opener, which has the power to effortlessly operate the majority of residential rolling doors.

Features

- Ultra compact design - it can be installed in almost any space
- Powerful yet quiet 600N motor
- Long lasting LED courtesy lights
- Soft start and stop to reduce door stress

EasyRoller is compatible with residential Roller Doors up to 16.5m².

Optional door modes include

- Automatic close timer – for extra security protection
- Ventilation / pet mode – for allowing air flow or pet access into the garage
- Vacation mode – for prolonged absences

Ultra powerful motor

Compact in design, this powerful motor is quiet and allows effortless operation of Garador Rolling Doors.

TORO GDO-10

Garador Toro GDO-10 A giant in rolling door automation

Roller Door opener

The Garador Toro offers a sophisticated industrial rolling door opener with superior pulling power. It comes as standard with built-in battery backup and a wall mounted LCD control panel that can programme a variety of operating modes for your security and safety.

Features

- Logic controls with LCD screen
- Heavy duty 1000N DC motor
- Soft start and stop to reduce door stress
- Manages up to 511 TrioCode™ 128 transmitters
- Built in battery backup

The Toro opener is compatible with commercial Roller Doors up to 28m² and high duty cycles.

Optional door modes and features

- Wireless safety beams
- Automatic close timer – for extra security protection
- Ventilation mode – for allowing air flow into the garage
- Vacation mode – for prolonged absences
- Time clock
- Light output

Optional lockable control box

The optional lockable control box mounts the LCD console inside a sturdy enclosure. It features separate open, close and emergency stop buttons on the door control.

Accessories

Safety beams

If you have young children or pets, the addition of infra-red beams provides added safety and security, as the door will automatically stop and reverse if the beam is broken whilst the door is closing.

Ultra quiet belt drive

If you want an even quieter door, the belt drive is the perfect addition to your motor. It is ideal for reducing noise being transferred inside and is a must have if your bedrooms or living areas are above your garage.

Entry key pad

Allows entry to the garage without a remote transmitter and is great for children. There's no need to give them a key or transmitter as they can enter the house with their PIN.

Rechargeable battery backup

In the event of a blackout or other break to the power supply, the opener will still be operational with a rechargeable battery backup.

Combo access device

This device allows you to open roller doors manually during a power failure using a key to remove the barrel with a cord attached to the disengagement handle. It also allows for key electrical operation.

Emergency key release

Allows your garage door to be disengaged and operated manually from outside when there is no other garage access available.

Wall mount remote control

Mounts inside the garage allowing remote door operation. Features TrioCode™ technology.

Extra remotes

Lost your remote or need additional remotes for your family? Talk to your local Garador dealer about ordering a genuine remote.

Security system compliant

Garador openers can be wired into alarm systems. This allows your remote to arm and disarm the alarm.

Specifications

Specification	Description	Sectional Doors		Rolling Doors	
		Ero GDO-11	Enduro GDO-9	EasyRoller GDO-6	Toro GDO-10
