

A colour to suit your style

With such a wide range of colour options available, you really can personalise your garage door by choosing the colour you love.

The right choice

All of our pre-painted steel is made in New Zealand for New Zealand conditions. New Zealand Steel Limited is our preferred supplier of steel for garage doors. With over 30 years of experience, COLORSTEEL® is made with custom paint formulations to provide excellent colour performance and scratch resistance.

CALL US FOR A FREE QUOTE 0800 GARADOR

*Available for Roller Door styles only. **Only for Sierra & Nevada doors.

Colour sample

Your Garador dealer is happy to lend you actual metal colour swatches to take home and choose from.

Match your door to your favourite colour.

We have teamed up with Dulux to offer over 100 optional powder coated colours. Powder coating is a process where our garage doors are covered with a polyester or epoxy powder, which is then heated to fuse into a protective layer. You get an excellent finish and the choice of just about any colour you want.

DISCLAIMER:

The colours in this gallery are intended as a guide only and are not available in all door styles.

Refer to the applicable style brochure for a colour matrix. If colour selection is critical please request a steel colour sample from your local Garador dealer. Please make contact with your Garador dealer for advice and samples. Garador reserves the right to change/delete colours without notice.

†Normally acceptable imperfections that are inherent with flatter door styles may be visually enhanced by darker door colours such as those marked.

GARADOR.CO.NZ

Every Kiwi deserves a reliable garage door.

Garador has looked after Kiwis for more than 50 years and we believe that reliability is paramount when it comes to your garage door.

ARRANGE A FREE MEASURE & QUOTE

Your local Garador specialist offers a free on-site measure and quote service, providing style, design, colour and technology consultation to ensure that the best garage door and opening system is installed in your home.

Call us on **0800 427 236** or visit our website at **www.garador.co.nz** to book a consultation.

Colour and Your Door.

Garador takes pride in producing quality doors and openers. However, some things are out of our control — like the direct heat of the sun and seasonal temperatures that can cause irregularities in the door panel surface (due to thermal expansion). The colour you choose can also play a part. Talk to your local Garador dealer for further advice around your requirements and expectations.

Each Garador door is custom-built to fit your garage perfectly. For more details on this product or our other ranges call 0800 427 236 or visit www.garador.co.nz.

- a. For areas within one kilometre of a corrosive environment e.g., salt air or industrial fallout, special care and maintenance are generally required for metal products. Consult your Garador Accredited Dealer for advice.
- b. The company reserves the right to make changes or improvements to the products or accessories without notice and without incurring any obligation to make similar changes or improvements to goods previously ordered. Specifications subject to change without notice.
- c. While New Zealand Steel Limited is our preferred supplier, steel products from other sources may also be used.
- d. Details correct at date of publication.

As with all types of garage doors, for optimal trouble free performance and safety, we recommend you have your door serviced once in the first 12 months and then at least every 2 years thereafter.
