

# Opener and accessories

Our garage door openers are reliable, smooth, quiet and have built-in Tri-Tran+™ enhanced security. Our openers are designed to work in synergy with the complete range of Garador garage doors.

ADDED  
SAFETY

## Safety beams

If you have young children or pets, the addition of infra-red beams provides added safety and security, as the door will automatically stop and reverse if the beam is broken whilst the door is closing.

For safety reasons, the installation of Safety Beams is required when a Garage Door can be operated by smartphone. AS/NZS 60335.2.95:2012

PEACE  
OF MIND

## Rechargeable battery backup

In the event of a blackout or other break to the power supply, the opener will still be operational with a rechargeable battery backup.

EASE  
OF USE

## Entry key pad

Allows entry to the garage without a remote transmitter and is great for children. There's no need to give them a key or transmitter as they can enter the house with their PIN.

ENHANCED  
SECURITY

## Auto-lock

This smart keyless technology allows you to lock your garage door every time you close it using nothing but your regular remote control. The lock more than doubles the force required at the lock point to lift the door from a closed position.

# Secure garage door control at your fingertips.

Every Garador automatic garage door opener comes standard with Tri-Tran™ remote control technology which delivers:

- Advanced security against code grabbing devices that attempt to gain access to your home
- Reliable operation – rest assured that your remote will work when you need it to
- No interference from other wireless devices such as baby monitors and door bells
- 4 remote buttons so that you can operate multiple garage doors (e.g. home, bach, automatic gate)
- Excellent operating range

Featuring Tri-Tran+ 128-bit Technology

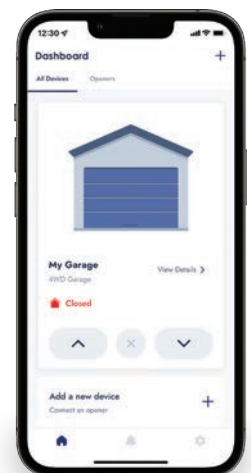

## Smart phone control kit

A smarter way to control your garage door.

Garador's optional Smart Phone Control Kit lets you control your garage door with your Android or Apple smart phone wherever you are in the world, so now you'll always know whether you shut your garage door!\*

- Smart, simple control of your garage door via our easy to use app<sup>^</sup>
- Secure home access – with real-time alerts, 24/7 monitoring and activity logs\*
- Now comes standard on Genius Opener
- Compatible with Siri, Google Home, Alexa 

\* 10 Year Warranty is available for selected Door & Opener packages. Terms and conditions apply.

<sup>^</sup> Subject to cellular WIFI connection and availability. Phone not included. Safety Beams required with Smart Phone Control. AS/NZS 60335.2.95:2012

## SECTIONAL OPENERS

a) \*Garador Genius HD GTS-4v3 openers are covered by a 7 year / 30,000 cycle warranty, Genius GTS-3v3, Precision, and Reflex openers are covered by a 7 year / 20,000 cycle warranty, the Focus model door opener drive units are covered by a 5 year / 10,000 cycle warranty, GDO-12 openers are covered by a 2 year / 10,000 cycle warranty and GDO-10 openers are covered by a 2 year / 5,000 cycle warranty. Opener must be installed by an approved Garador dealer or installer. 12 month warranty on transmitters (LED's and batteries excluded). Full details of the warranty and care guidelines are available from [www.garador.co.nz](http://www.garador.co.nz). Warranty only applies to openers purchased and installed in New Zealand. Warranty only valid if warranty conditions are met.

b) If correct maintenance and servicing are not carried out, warranty may be void. To keep your door and opener running well, it is recommended that your door be serviced by an experienced Garador technician, once in the first 12 months and then at least every 2 years thereafter or earlier if required.

c) The company reserves the right to make changes or improvements to the products or accessories without notice and without incurring any obligation to make similar changes or improvements to goods previously ordered. Specifications subject to change without notice.

d) Details correct at date of publication.
